deleting records in the `BankUsers` table we created earlier:

sql

Copy code

```
CREATE PROCEDURE spBankUsers
    @UserID INT = NULL,
    @Name VARCHAR(50) = NULL,
    @AccountTitle VARCHAR(50) = NULL,
    @AccountType VARCHAR(50) = NULL,
    @Balance DECIMAL(10, 2) = NULL,
    @Action VARCHAR(10)
AS
BEGIN
    IF @Action = 'INSERT'
    BEGIN
        INSERT INTO BankUsers (UserID, Name, AccountTitle, AccountType, Balance)
        VALUES (@UserID, @Name, @AccountTitle, @AccountType, @Balance)
    END
    ELSE IF @Action = 'UPDATE'
    BEGIN
        UPDATE BankUsers
        SET Name = @Name,
            AccountTitle = @AccountTitle,
            AccountType = @AccountType,
            Balance = @Balance
        WHERE UserID = @UserID
    END
    ELSE IF @Action = 'DELETE'
    BEGIN
        DELETE FROM BankUsers
        WHERE UserID = @UserID
    END
END
```
